

Lighting Stand

Designed to give an overview of our extensive range of beacons and worklamps the **LS1 Lighting Stand** takes up only a small amount of floor space but has an enormous visual impact.

The **LS1 Lighting Stand** displays thirteen (13) separate part numbers on a 1.8m tall, signal yellow aluminium 'tree' that also incorporates a brochure holder to allow this in-store merchandiser to play the silent salesman to perfection.

The **LS1** contains all of the items listed below. The stand is provided free of charge and remains the property of Vision Alert.
